

Sample School Concussion Management Form (Return to School Plan)

The Return to Learning (RTL) and Return to Physical Activity (RTPA) Plans have been developed in partnership with Parachute and are based on the most recent research and recommendations of the expert scientific community on concussion, that is the Canadian Guidelines on Concussion in Sport, July 2017 and the Berlin Consensus Statement on Concussion in Sport, October 2016.

The RTL and RTPA plans are inter-related however, they are not interdependent. A student's progress through the stages of RTL is independent from their progression through the RTPA stages. Different students will progress at different rates.

Before using the School Concussion Management Form (Return to School Plan), consult the [General Procedures and the Instructions for the School Concussion Management Form \(Return to School Plan\)](#).

The Sample School Concussion Management Form (Return to School Plan) derives from stages 3a to 4b of the [Concussion Return to School Plan for Return to Learning](#) and the stages of 3 to 6 of the [Concussion Return to School Plan for Return to Physical Activity](#).
